Phone: (650) - 484 - 9982

Career Objective:

To obtain a front-end developer role that leverages my technical skills and experience, as well as my strong teamwork and communication skills. As a reservist in the Army, I bring discipline, leadership, and problem-solving skills to the table that are crucial to succeed in the fast-paced tech industry. My experience as a Senior Frontend Engineer at the Computer Science Club has honed my skills in mentoring and leading a team, as well as developing and implementing innovative solutions to meet project requirements. I am passionate about designing intuitive and visually appealing interfaces that provide users with a seamless experience, and I am always eager to learn and collaborate with others to achieve the best results.

PROFESSIONAL EXPERIENCE

Frontend Engineer
Choice designs

February 2022 – Current

- Managed a team of developers and designers, providing guidance and support to ensure successful completion of projects, updates on applications, and debugging solutions.
- Debugged subordinate's code to ensure functionality and quality of code.
- Developed frontend code and implemented UX/UI design for all applications and home website.
- Engineered continuous integration/continuous deployment & (CI/CD) practices to improve the efficiency of the development process.
- Developed with ReactJS and Swift for IOS to develop and maintain websites and applications.
- Ensured websites and applications were up to date and maintained to high standards.
- Collaborated with the company's product team to create visually stunning and user-friendly UI / UX.
- Managed projects and tasks to ensure timely completion of projects.

Jr Frontend Engineer
Old Guys Pool Service

June 2019 – January 2022

- Developed and maintained web applications' frontend using HTML, CSS, JavaScript, ReactJS, NextJS, Tailwind, Redux, and design tools such as Figma and Adobe.
- Collaborated closely with backend teams to ensure smooth API integration of frontend and backend systems.
- Engineered continuous integration/continuous deployment & (CI/CD) practices to improve the efficiency of the development process.
- Ensured the high performance, responsiveness, and scalability of web applications.
- Collaborated with product teams to develop visually stunning and user-friendly web applications.
- Maintained a strong attention to detail to deliver high-quality code.

FREELANCE:

Boards n More— *React JS, Next JS, Tailwind CSS, Redux.*

- Created an engaging and intuitive user interface that offered seamless navigation and quick access to products.
- Leveraged proficiency in HTML, JavaScript, and CSS to create responsive designs that worked well on various devices.
- Utilized ReactJS and NextJS to develop robust and efficient client-side rendering, improving the website's performance and speed.
- Employed Redux for state management, handling complex data flow and streamlining the user experience.
- Integrated MongoDB for efficient data storage and retrieval, managing inventory, tracking orders, and displaying products on the website.

Delta Regal Movie Theater — *React JS, Next JS, Tailwind CSS.*

- Developed, designed & implemented UI components and features that enhanced the user experience, such as the ability to search for movies, view showtimes, and purchase tickets online.
- Utilized CI/CD practices to automate the build, testing, and deployment process, ensuring that changes were delivered to production quickly and reliably.
- Collaborated in an Agile development environment, attending daily stand-up meetings, participating in sprint planning, and collaborating with the team to deliver high-quality code on time.

EDUCATION

Associate degree
Computer Science

College of San Mateo

2020 - 2022

SKILLS

PROGRAMING LANGUAGES:

- HTML
- CSS
- JavaScript
- Typescript
- Es6
- Swift
- Java
- python
- Node.js
- Mongo DB
- CI/CD
- RESTful API's
- 3rd Party API's

LIBRARIES:

- React.js
- tailwind
- Bootstrap
- Next.js
- Vite
- Redux
- Flask
- Django

DESIGN TOOLS:

- Adobe XD
- Illustrator
- Photoshop
- Figma
